

Flow Aids - VBSI Aerator

- An air fluidiser ideal for applications where internal silo access is difficult or impossible
- Food and pharmaceutical grade with stainless steel stem
- One way directional airflow boosts powder discharge
- Internal application in silos, hoppers, pipes, dry bulk tanks
- Suitable for dry fine powders

FLOW AIDS - AERATORS/FLUIDISER - VBSI	
Type	Aerator
Application	Silos, hoppers, pipes
Powder	Dry, fine granular powders
Solves	Bridging, rat holing
Duty Cycle	Continuous or discontinuous
Working Pressure	0.8 to 6 bar (12 to 87 psi)
Working Temperature	-40 to 170 °C
Materials	Stainless steel

VBSI - DIMENSIONS		
Code	A Ø	B
VIOLIVBSI	104	79

All data, performance curves, and dimensions provided are for general guidance only. Performance may vary depending on operating conditions and fluid properties. Refer to the product manual for complete specifications, installation requirements, and confirmed dimensions. Specifications are subject to change without notice.
